

Quality Vision Statement for Ono Group

Empowering Quality Excellence for a Safer and Healthier World

Within the DNA of Ono group is a steadfast commitment to assuring the safety, efficacy, and reliability of every Ono product. By thus, ensuring the safety and wellbeing of all patients globally. We envision a future where ONO is continuously perceived as the cornerstone of compliance, recognized for its unwavering dedication to the delivery of quality products worldwide.

We are committed to:

1. **Quality**

Through our commitment to quality, we strive to continuously provide patients and stakeholders with safe, effective and reliable products and services that meet regulatory requirements.

2. **Patient-Centric Excellence**

Patients' wellbeing and rights are at the heart of everything we do. We are devoted to safeguarding patients' wellbeing/rights, data integrity, Ono products and reputation.

3. **Integrity**

We are dedicated to upholding the highest levels of integrity and ethical conduct. We are committed to maintaining transparency, traceability, and accountability in all our processes, fostering trust and partnership with our stakeholders.

4. **Continuous Improvement**

We are adopting emerging technologies, and pioneering novel approaches to continuous improvement. By evaluating and embracing the latest advancements, we ensure our products not only meet current standards but aim to set new benchmarks for the future.

5. **Collaborative Innovation**

We embrace an organizational culture of sharing knowledge, driving innovation, and adopting a 'right first time' risk-based approach – Quality by Design.
