

FY2025Q3 Financial Results

Profit and Loss Recognition Period for Deciphera Pharmaceuticals, Inc.

Regarding the profit and loss recognition for Deciphera Pharmaceuticals, Inc., six months were recorded in the same period last year, while nine months have been recorded this year.

Highlights of Financial Results for FY2025Q3 (Core Basis)

For the FY2025Q3 ending March 2026, we recorded increased revenue and profit.

FY2025Q3 Sales Revenue

Revenue increased by ¥22.5 billion (6.0%) year on year to ¥397.0 billion, which is the highest third-quarter sales in our history.

Domestic Sales : Despite the entry of generic products in December, sales of FORXIGA increased due to its expanded use, particularly in treatment for chronic kidney disease and chronic heart failure. However, overall sales slightly decreased mainly due to a decline in OPDIVO sales.

Overseas Sales : Sales of QINLOCK increased by ¥11.3 billion to ¥28.6 billion. Sales of ROMVIMZA were ¥5.4 billion. Royalty revenue associated with OPDIVO and other products continued to increase steadily.

FY2025Q3 Core Profit for the Period

Core profit for the period increased by ¥13.5 billion (17.6%) to ¥90.0 billion.

Although expenses increased due to the inclusion of three additional months of R&D and SG&A expenses for Deciphera compared to the previous year, the increase in sales exceeded these expenses, resulting in the profit increase.

FY2025 Financial Result Forecast

Sales and profit for the year is expected to increase compared to the previous fiscal year.

Although sales of FORXIGA is expected to decrease due to the entry of generic products, an increase in sales and profits is anticipated mainly due to growth in sales of QINLOCK and ROMVIMZA, as well as an increase in overseas royalty revenue.
